(304) 228-7890 | philip08533gonzales@gmail.com | linkedin.com/in/philip-gonzales | phil08533.github.io/Portfolio | Beckley, WV

PROFESSIONAL SUMMARY

Computer Information Systems and Cybersecurity graduate with hands-on experience developing full-stack web applications, cybersecurity attack simulations, and operational business software. Combines 13 years of business ownership and operations management experience with technical proficiency in Python, C++, SQL, JavaScript, Bash, and Linux. Passionate about rapid prototyping, secure systems architecture, and delivering practical technological solutions to real-world challenges.

EDUCATION

Concord University — Athens, WV

Graduation: May 2026

B.S. in Computer Information Systems & B.S. in Cybersecurity | Minor in Mathematics

Dean's List Recipient: Spring 2024, Fall 2024, Spring 2025, Fall 2025, Spring 2026 (5 Semesters)

TECHNICAL SKILLS

Programming Languages: Python, C++, C, SQL, JavaScript (ES6+), HTML5/CSS3, Bash, x86/ARM Assembly

Frameworks & Developer Tools: Flask, SQLite, Docker, Git, GitHub, VS Code, Godot, Linux (Kali, Tails, Arch, Ubuntu, Mint, Void), Windows

Cybersecurity & Systems: Autopsy, FTK Imager, Wireshark, Metasploit, Ghidra, Cisco Packet Tracer, Attack Simulation & Threat Modeling

Operations & Soft Skills: Operations Management, Team Leadership, Client Relations, Resource Allocation, Service Autopilot, LMN Solutions

TECHNICAL PROJECT PORTFOLIO (INDEPENDENT BUILDS)

RiskVector.org — *Cyber Attack Simulation Platform [Solo Developer]*

Python, Monte Carlo Modeling

- Architected a Monte Carlo-based cybersecurity simulation platform modeling multi-stage enterprise attack paths using real-world breach data.
- Automated calculation of defensive countermeasure efficacy, organizational risk scores, and probabilistic financial impact assessments.

VoidScroll.org — *Zero-Backend Infinite Video PWA [Solo Developer]*

JavaScript, Service Workers, Python

- Developed a 100% client-side Progressive Web App (PWA) delivering 24,000+ public domain videos across 17 categories with zero backend cost.
- Implemented infinite scrolling, mobile gesture navigation, ambient sound mixing, and an automated Python data extraction pipeline.

Portal-Music.com — *Copyright-Free Music Platform [Solo Developer]*

Full-Stack Web App, Audio APIs

- Created a creator-focused web platform delivering royalty-free tracks for YouTube and TikTok creators to mitigate DMCA copyright claims.

Hack Attack — *Game-Based Cybersecurity Learning Tool*

Role: Project Manager & Developer

- Directed student developer team as Project Manager, coordinating git workflows and development sprints to build an interactive training game in Godot.
- Engineered game mechanics to instruct players on core threat defense principles and cybersecurity awareness through gamified scenarios.

Additional Builds: *Runway* (financial runway calculator); *My Circle* (serverless private social app via Google Drive API); *Pawster* (foster coordination app in Flask/SQLite); and *Movie Monster* (AppSheet/TMDB app).

PROFESSIONAL EXPERIENCE

Riverside Lawn Care Inc. — *Co-Founder & Operations Manager*

2013 – Present

- Co-founded, scaled, and sustained a profitable field operations enterprise serving 100+ recurring residential and commercial clients across 13 years.
- Built and maintained company website (RiversideLawncareBeckley.com), driving digital customer acquisition, SEO, and client booking.
- Directed daily operations, crew staffing, equipment logistics, financial budgeting, and long-term client relationship management.

Bridgeport Equipment and Tools — *Service Manager*

2022 – 2023

- Supervised a team of mechanics, managing diagnostic workflows, repair estimates, billing, and parts procurement for high turnaround efficiency.

Winterplace Ski Resort — *Ski Technician*

Seasonal (2013, 2016, 2017)

- Executed precision ski/snowboard equipment adjustments, safety compliance inspections, and gear fittings in a high-volume resort environment.
